US SENATOR - R	John Barrasso											It's time we put this battle behind us. There are hundreds of thousands if not millions of law-abiding Americans including veterans, cancer patients and chronic pain patients who use marijuana to alleviate their pain and symptoms. Let's allow them to move out of the shadows and openly take care of their health care needs without worrying about breaking outdated laws based on antiquated thinking.

US REP - R	Liz Cheney											The war on drugs has made criminals out of valuable citizens in the community and needs to end. I would advocate for this on a moral, fiscal, medical and humanitarian level.
US REP - D	Greg Hunter	A	A	A	A	A	A	A	A	A	A	
GOVERNOR - R	Mark Gordon											I do not support legalization of marijuana for recreational use. When it comes to developing treatments for medical conditions and diseases, I think we need to consider a wide variety of solutions. As I'm sure you are aware, marijuana is currently classified as a schedule one substance which prohibits scientific research into its effectiveness. I support efforts on the federal level to reclassify it to a schedule two so accurate information can be obtained and the safety and dosage can be determined. Until we have further studies and more conclusive evidence about how marijuana can be used to successfully treat diseases without negatively impacting patients and families, I remain concerned about its use. In the meantime, substances like marinol have been shown to provide similar medical benefits to marijuana. Prescribed substances like this are more reliable and have fewer impurities than organics.
GOVERNOR - D	Mary A. Throne	B	A	A	A	D	C	A	A	A	A	I've long supported decriminalization of marijuana as a legislator. I support well regulated medical marijuana, but I do not think Wyoming is ready for fully legalized recreational marijuana.
SECRETARY OF STATE - R	Edward Buchanan	B	A	A	F	F	D	A	C	B	B	I agree with FDA approved medicines that are THC/cannabis based. I am against legalization for recreational use.

STATE SENATOR 09 - D	Chris Rothfuss	Declined										
STATE SENATOR 11 - R	Larry Hicks											I think it's ridiculous for anyone to be sent to jail for marijuana use - it's a waste of resources. We have better things to do, but I do not want to answer special interest surveys.

STATE SENATOR 13 - R	Tom James	A	A	A	A	B	A	A	A	A	A	In my experience in seeing how medical marijuana has helped veterans and people with disabilities, there is no reason this should not be an option.

STATE SENATOR 17 - R	Kate Mead											I support medical access.

STATE SENATOR 17 - D	Mike Gierau	A	A	A	A	D	C	A	A	A	We need to take away felony penalties; people should not be in jail for cannabis. Medical should be available, but I'm not yet ready to accept recreational use.
STATE SENATOR 19 - R	R J Kost	B	D	D	D	F	F	D	D	D	Until medical marijuana can be better controlled and dispensed I am opposed to it's legalization. I will never be in favor of legalization of recreational Marijuana Thank you for your survey.
STATE SENATOR 21 - R	Bo Biteman	A	A	A	B	B	C	B	n	B	I did not answer the question regarding the licensed medical practitioner because I'm not sure what that means. The question was not clear.

STATE REP 03 - R	Eric Barlow	Declined									I am open to all policy options when constituents bring up concerns, and I will look at the issues based on their merits, but I do not fill out surveys.
STATE REP 04 - R	Dan R. Kirkbride	Declined									I have sympathy for people with medical conditions, but medical laws will open the door to recreational use, and we don't want that.
STATE REP 05 - R	Shelly Duncan	B	B	B	C	C	C	B	B	B	I have seen many important gains in research and comfort to those suffering with chronic pain & illnesses such as cancer and debilitating diseases (epilepsy). If we could alleviate those suffering within our state and work within our communities and our university on furthering the research about it's various forms and healing properties for the betterment of our people, then I would support such initiatives.

STATE REP 09 - R	Landon J. Brown										Until the feds change their Schedule I directive, I cannot support rec. There are too many pitfalls. However, when it comes to medicinal use, I am for that when narrowly listed for a set of specific ailments.

STATE REP 12 - R	Clarence L. Styvar										
STATE REP 12 - D	Ryan Lindsey	A	A	A	A	A	A	A	A	A	I work in healthcare and corrections. There are far more important things to worry about than cannabis use. Studies demonstrate that components of cannabis help with various health disorders. The state is losing millions because of the lack of distinction between marijuana and hemp.
STATE REP 13 - D	Cathy Connolly	A	A	A	A	A	A	A	A	A	
STATE REP 14 - R	Daniel Furphy										
STATE REP 14 - D	Lorraine Saulino-Klein	B	B	n	A	n	n	C	C	A	The questions I did not answer have complicated answers. I'm a nurse and know that medical practitioners abuse narcotic and other controlled drugs. However, it is crazy to put people in jail for pot use and there are a few medical reasons to use this. We are talking social expectations. I'm a science based decision maker. Young people are harmed by too much pot use. But I'm against jail for anyone who uses pot. Fines seem appropriate as long as they are not cheap for the rich and exorbitant for the poor & the young. We need to decriminalize this drug and get control of the use.
STATE REP 15 - R	Donald Burkhart										
STATE REP 16 - R	Barbara Allen										I support cannabis law reform (medical, decrim, and regulated adult use), but I do not fill out surveys.
STATE REP 16 - D	Mike Yin	A	A	A	A	A	A	A	A	A	
STATE REP 17 - R	Traci Ciepiela	A	B	B	B	F	F	B	B	C	Medical marijuana could truly be an effective treatment for some issues. I wouldn't be able to support its use for simple injuries - bumps bruises or pain that is not properly diagnosed. The financial issue hasn't turned out as expected in Colorado. The costs of overall legalization may appear to be higher than the actual financial benefit.
STATE REP 17 - D	JoAnn Dayton	A	D	C	C	C	D	B	C	C	We need to have a plan. I have reservations due to the wording of the statements in this survey. There has to be a coherent way to regulate (while) omitting the possibility for a free-for-all. Hemp must be tested to prove there is no THC. I'm in favor of medical if prescribed by a licensed physician and the manufacturing and distribution is tightly controlled. I believe in other methods (of rehabilitation) rather than jail time providing how many occurrences of arrest and quantity.
STATE REP 18 - R	Thomas D. Crank	B	B	B	C	D	D	B	B	C	I support controlled medical marijuana. I do not support recreational marijuana.
